# STREAM YOUR D3 CREATED CURVES SEAMLESSLY INTO YOUR TRADING APPLICATIONS

## DIGITEC'S D3 PRICING

A powerful and feature-rich Foreign Exchange and Money Market rate engine covering cross and arbitrage calculations. D3 Pricing can handle all currency pair combinations and their associated public holidays, cross and broken date calculations and offers smart and simple spread and bid/offer margin management. It also includes several interpolation methods, step curves and different average price calculations.

## WHY CHOOSE D3?

A rapidly growing FX and MM e-commerce market requires a highly reliable and accurate pricing of financial instruments, at lowest latency and across all the tradable currency pairs. Digitec provides its clients with new D3 releases on an annual basis allowing our clients to maintain or even grow their position in this business and improve investment and trading decisions. D3 can handle many market specialties such as early New Zealand date rolls, day count methods or NDF 1M calculations.

# MARKET DATA IMPORT AND RATES EXPORT

Choose from a variety of different market data import interfaces, such as Thomson Reuters, Bloomberg, ECN's or Multi-Bank Channels, Microsoft Excel or our own flexible API interface which allows you to connect to any source of your choice. Export of rates and price quotes can be handled via Digitec's API interface or Thomson Reuters RIC infrastructure. This permits your streaming accurate quotes to all trading applications 24 hours a day. To provide sales desks with the latest quotes, D3 offers an easy deployable view-only web interface.

D3 is the perfect toolbox for yield curve construction according to your own firm's specific analytic and trading requirements.

The stepwise construction process along a consistent timeline ensures perfect control while offering an outstanding flexibility. Fitting even highly complex curves feels comprehensively intuitive. Ask for a D3 demo today.

SUPPORTED FINANCIAL INSTRUMENTS FX Forward, Swaps, NDFs, Spot and MM Rates

#### **IMPROVE MARKET DATA**

you select free and useful market rates from various independent providers

### REDUCE RISK AND COST
